

Kyle Smith

(803)587-4690 | kyle@someotherkyle.com | github.com/someotherkyle | someotherkyle.com

Full stack web developer with an aptitude for solving unique and challenging problems. Focused on expanding my knowledge and abilities in programming, website development and quality assurance. With experience in Ruby on Rails, JavaScript, React, Redux and a military background, I bring strong skills in team-building and project management that help solve real-world problems. I am looking for challenging projects and opportunities.

TECHNICAL PROJECTS

someotherkyle.com - someotherkyle.com

A personal portfolio with a React and Redux front end and a Ruby on Rails back end

- + Developed React Components to display all routes and assets
- + Used CSS and JavaScript to construct a pleasing and functional design
- + Applied Thunk middleware to integrate asynchronous actions between Redux and the Rails API.

2048 Clone - <https://github.com/someotherkyle/2048-react-front> | someotherkyle.com

A replication of the 2048 game built with React & Redux.

- + Wrote recursive methods to prevent code repetition
- + Utilized Redux store to manage all state site-wide
- + Built a Ruby on Rails RESTful API to store and retrieve data in a SQLite database

Activity Tracker - <https://github.com/someotherkyle/activity-tracker> | <https://vimeo.com/335177452>

An activity tracker to analyze where time spent on a project goes.

- + Used the MVC model to maintain separation of concerns and keep the project organized
- + Implemented the bcrypt gem to prevent credentials being stored in plaintext
- + Used ActiveRecord to communicate with a Postgres Database

TECHNICAL SKILLS

Ruby, Rails, SQL, JavaScript, React, Redux, Linux
